

WAKEFIELD

 195m² home

 3 bed

 2 bath

The Wakefield has been designed to maximize solar passive design with ample north facing glazing to the living areas and bedrooms, ensuring heating this house will be easy in winter.

With three main zones, kids, family and parents this design provides plenty of space to be together whilst still having plenty of your own space.

The large galley kitchen and walk in pantry is the central hub of the family zone providing ample space for those large family gatherings. The narrow width ensure the Wakefield will suit most residential blocks whilst maintain plenty of out door space
